## CAREER OBJECTIVE

As a dedicated Civil Engineer with a strong passion for construction and building design, my objective is to leverage my expertise in structural engineering, project management, and sustainable construction practices to contribute to innovative and impactful building projects. I am committed to delivering high-quality results while adhering to safety regulations and utilizing the latest technological advancements. Seeking a challenging role within a forward-thinking company where I can collaborate with diverse teams to create structures that stand as testaments to both engineering excellence and aesthetic

## SKILLS

- **Team Collaboration:** Effective communication and teamwork skills to collaborate with architects, contractors, project managers, and other professionals.
- **Communication Skills:** Strong written and verbal communication skills for writing reports, presenting ideas, and conveying technical information to non-technical stakeholders.
- **Contract Negotiation:** Experience in negotiating contracts, scope changes, and project modifications with clients, contractors, and suppliers.
- **Health and Safety:** Understanding of occupational health and safety regulations to create a safe working environment on construction sites.
- **Software Proficiency:** Familiarity with software tools such as AutoCAD, Excel, Word, Primavera P6, and Microsoft Project for structural analysis, scheduling, and project management.
- **Leadership:** Demonstrated ability to lead project teams, mentor junior engineers, and provide technical guidance.
- **Continuous Learning:** Willingness to stay updated with the latest advancements in civil engineering, construction methods, and industry trends.
- **Project Planning:** Ability to develop detailed project plans, including scope, timeline, milestones, and resources needed.

## EDUCATION

**BACHELOR OF TECHNOLOGY** || Punjab  
Technical University || Jalandhar 2016

**Intermediate** || Bihar State  
Education Board || Patna 2012

## SKILLS

- **Construction Management:** Knowledge of construction processes, scheduling, budgeting, and resource allocation to ensure projects are completed on time and within budget.
- **Site Management:** Expertise in overseeing construction sites, managing contractors, coordinating activities, and ensuring compliance with safety regulations.
- **Materials and Methods:** Familiarity with various construction materials, techniques, and methodologies for building foundations, walls, roofs, and other structural elements.
